

B.Tech Computer Science student graduating in 2026 with strong foundations in Java programming and relational databases. Hands-on experience in building applications using Spring Boot and MySQL. Comfortable working with REST APIs, Git version control, and database design. Quick learner with strong problem-solving skills, eager to contribute to meaningful software development projects.

EDUCATION

Bachelor of Technology in Computer Science Engineering (CSE), Medi-Caps University, Indore Aug 2022 – May 2026
CGPA: 8.46 / 10

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Computer Networks, Software Engineering

Class XII, Marthoma Public School, Indore 2022
Percentage: 89.6%

Class X, Marthoma Public School, Indore 2020
Percentage: 90%

SKILLS

Programming Languages	Java, SQL, JavaScript
Web Technologies	HTML, CSS, Spring Boot, JPA, RESTful APIs
Databases	MySQL, PostgreSQL
Tools & Platforms	Git, GitHub, Maven, Postman, IntelliJ IDEA, Visual Studio Code

PROJECTS

BookSwap – Community Book Lending Platform [GitHub](#)

- Currently building a book-sharing web application where users can lend and borrow books nearby.
- Implements geolocation search using MySQL spatial queries to find books within 1 to 10 km radius.
- Creates RESTful APIs with Spring Boot handling JWT authentication, book CRUD operations, and borrow workflows.
- Created a complete borrow lifecycle with request approval, status tracking, and automated return management.

Interview Process Tracking System [GitHub](#)

- Built a recruitment web app enabling HR to manage job descriptions, candidates, and end-to-end interview progression across Screening, L1, L2, and HR rounds. requests, while employees can apply and track leave balances.
- Implemented JWT authentication with Spring Security and role-based access control for HR, Panel, and Candidate roles with scoped API access.
- Designed RESTful APIs with Spring Boot, PostgreSQL/JPA, centralized exception handling, and SMTP email notifications for scheduling and panel onboarding.
- Achieved 80%+ unit test coverage using JUnit and Mockito, with code quality enforced via Jacoco, SpotBugs, PMD, and Checkstyle.

Money Manager – Personal Finance Tracker [GitHub](#)

- Developed a secure finance tracking application with JWT authentication enabling users to manage income, expenses, and categories.
- Designed a React-based dashboard displaying monthly financial summaries with category-wise expense breakdowns.
- Added search, filter, and category grouping features to enhance data accessibility and user experience.

ACHIEVEMENTS & LEADERSHIP

AWS Academy Graduate 2025

Amazon Web Services

- Completed AWS Cloud Foundations (20 hours) and AWS Cloud Architecting (60 hours) certifications.

HackNdore Hackathon – Top 5% (1500+ teams) 2024

Indore Government

- Designed a civic-tech solution for governance challenges and pitched to government officials in a 48-hour hackathon.

Campus Ambassador

Oct 2024 – Apr 2025

Unstop

- Coordinated technical events and competitions, engaging 100+ student participants.

Technical Executive

Aug 2024 – Apr 2025

Google Developer Group, Medi-Caps University

- Led workshops and mentored 20+ students, engaging 150+ peers in technical initiatives.
